Winter Traction Aid and Ice Melter

Oil-Dri Snow & Go is a unique winter traction aid that breaks down snow and ice while absorbing the melted water before it can re-freeze. The all-natural formula is non-toxic and contains only 1/3 salt by volume.

--HOW IT WORKS--

1. Natural salt begins to melt the ice
2. Traction granules absorb water preventing re-freeze when temperature drops again
3. Traction granules embed into the ice to create a non-slip surface.

Darkens in color when activated for easy visibility on snow & ice.

INSTRUCTIONS: Remove as much snow and ice as possible before application. Spread Snow & Go™ evenly on remaining ice and snow at the rate of 1 cup per square yard, depending on how much ice is present. Snow & Go™ will darken in color as it absorbs the melted ice. Product will naturally break down over time and does not require clean up and disposal. If you choose to clean up, no special disposal required. When used as directed, Snow & Go will not harm vegetation, concrete or shoes.

AVAILABLE IN 10 LB. JUGS

Item Number	Weight	Packaging	QTY Per Pallet
L93010-G40	10 lb.	Jug	120

**CONTAINS ONLY
1/3 SALT BY VOLUME**

- ❄ Reduce negative impact of salt on vegetation
